**B/ DCX Technologies GmbH & BRAINCON Handels-GmbH & Co KG. Grinzinger Allee 5. A - 1190 Vienna. Austria**

**Internet: <http://braincon.com/> and <http://dcxtec.com/>**

1. DCX Technologies GmbH & Braincon Handels-GmbH is a technology company established under Austrian laws that designs, manufactures, markets and services specific disinfection control devices. With its affiliated companies DCX Technologies GmbH, they both provide selected Health Security Equipment and Services worldwide.
2. DCX Technologies & Braincon Handels has reached a development stage which enables the Full-Fledged Transfer of Technology and Know-How including Training of the Production of Mobile and Bio-Decontamination and Disinfection Equipment and Solutions
3. Any interested partner (License buyer) can purchase a license and receives the non-exclusive production right and non-exclusive patent rights which allows the partner to produce the DCX products in a predefined geographical space, with special focus on the regional level.
4. The interested Partner (Licensee) gets the R & D rights, meaning authorize to pursue supplementary research and development activities.
5. In order to benefit from the distribution channels and the marketing facilities of the new developed products within Braincon and partners' existing worldwide market, all products produced by the License Partner and based on the DCX technologies must comply with European regulations and quality standards.

<p>This bio-decontamination &amp; disinfection equipment and solutions have already saved lives (<a href="http://dcxtec.com/en/dcx-system/">http://dcxtec.com/en/dcx-system/</a>)</p>	
<ul style="list-style-type: none"> <li>• The Bio decontamination &amp; disinfection solution is based on a unique and innovative technology for rooms &amp; surfaces decontamination.</li> </ul>	
<ul style="list-style-type: none"> <li>• Automatic, innovative, efficient and safe Device</li> <li>• Eliminate microorganisms, germs and virus by using a hydrogen peroxide (H<sup>2</sup>O<sup>2</sup>) vapor drying</li> <li>• Cold dry dream, a micro aerosol produced by a patented ultra sound process (part of the transfer of technology)</li> <li>• Mobile and flexible device (could be moved from room to room) for full-fledged Disinfection &amp; Decontamination</li> <li>• Priority use in Health Centers, Hospital, Clinics, Ambulances, Laboratories, Pharmaceutical industries, Food industries, Food warehouses, Airport, Defense against bio-terrorism</li> </ul>	
<ul style="list-style-type: none"> <li>• It can swiftly (Important time saving) eradicate any type of physical &amp; biological contamination i.e. fungal infections/mycoses, bacteria, viruses including Ebola.</li> </ul>	
<ul style="list-style-type: none"> <li>• With a full transfer of technology and know-how including training, the return of investment is approximately 3 years, depending on the market.</li> </ul>
