BIO DECONTAMINATION & DISINFECTION PROJECT

UNIQUE TECHNOLOGY FOR ROOMS & SURFACES DECONTAMINATION

(ANY TYPE OF PHYSICAL & BIOLOGICAL CONTAMINATION I.E. FUNGAL INFECTIONS/MYCOSES, BACTERIA, VIRUSES INCLUDING EBOLA)

FULL TRANSFERT OF TECHNOLOGY INCLUDING TRAINING

RETURN ON INVESTMENT (APPROXIMATIVELY 3 YEARS)

Hospitals, Clinics, Health Care facilities, Nursing Homes, Retirement Homes, Pharmaceutical Industry, Laboratories, Ambulances, Public Transport, Food Industry/Production Areas, Epidemic Animal Feeding, Container/Schools/Kinder Garden/ Airport Decontamination, etc.

Project Profile: Bio Decontamination & Disinfection Project with Transfer of Technology, Training and Job Creation

- ✓ Unique Environmental Safe Technology For Rooms and Surfaces Decontamination
- Estimated Investment: Upon Negotiation in Euro
- Implementation : Full Transfer of Rights to Buyer or Looking for a License Partner to Produce and distribute the Products Exclusively in Several Africa Countries
- Minimum Down Payment: Approximately 50% and 10% per remaining years
- License Holders: 2 Private Austrian Companies Willing to Transfer Technology & Know-How as a Turnkey Project or as A License Partner with production and Distribution Facilities exclusively in Africa
- Looking for Investors: Preferably from Africa or with any interested Parties
- Existing Investors: Would like to Diversify in Innovative Technologies and Concentrate on Research & Development
- Difficulties: Unable to transfer to African Governments (Not Prepared for Serial Production and Commercial Distribution)

UNIQUENESS:

- ✓ Emerging Growing Market for Disinfection Devices and Fluids in Africa (Cold Aerosolized Hydrogen Peroxide)
- ✓ Unique Patented Ultrasonic Based Technology to Decontaminate Rooms and Surfaces from Any Type of Biological Contamination (1 Machine per 100+ Beds)
- A Dry H₂O₂ Micro-Aerosol Distribution in Contaminated Room for 15 mn to 60 mn (Small room) and 1 to 4 hours (Large Room) to destroy All Form of Microorganisms and Pathogens (Bacteria, Viruses including Ebola)
- Reduction by Log 6 & + (better as Sterilization)

MutAgile has been mandated by an Austrian Company to look for:

- **Investment Partners in Africa preferably with strong interest to become the African Leader in Bio Decontamination and Disinfection**
- **Interested Investors should be willing to:**
 1. *Safe Life and Reduce Health Costs*
 2. *Increase Patient Safety, Quality of Healthcare and Global Health Security*
 3. *Stop Infectious Disease Outbreak*
 4. *Eradicate Fungal Infections/Mycoses, Bacteria, Viruses and Contagious Diseases, Nosocomial Infections, etc.*
 5. *Prevent and Control of Healthcare-Associated Infections (HAI)*
 6. *Improve Health Safety and Prevent Biological and Bacteriological Weapons & Terrorism (Bio-Terrorism)*
 7. *Favor Hospitals' Hygiene and Stop HAI contracted during Hospital Stay*
 8. *Reduce by 99,9999+ All Risks of Nosocomial Infections and Resistant Pathogens*
 9. *Offer a Made in Africa Disinfection Packages*
 10. *Create Decent Job Opportunities*
 11. *Recover the Investment in appr. 3 years*
 12. *Negotiate Fiscal Incentives*
 13. *Prepare to Travel to Vienna for a series of Demonstrations and Show-cases*
 14. *Invite MutAgile and Partners for a Presentation of the Project and in-depth Series of Business Negotiations*
